Work experience

Super Group (SGHC)

Software Engineering Manager

Jun 2026 - Present

- Lead the technical transition from Derivco's legacy infrastructure to Super Group's cloud environment, following the strategic acquisition of Derivco's Sportsbook.
- Orchestrate the unification of the two Sportsbook platforms, integrating Africa's Player Account Management (PAM) system into our global platform and migrating all betting transactions.
- Spearhead the adoption of new corporate coding standards in Go and drive the transition to MongoDB across core backend systems, shifting toward a full data ownership model within engineering teams.
- Align with corporate stakeholders, Product, Operations and Site Reliability Engineering teams to mitigate risks and guarantee seamless product delivery during the migration phase.

Derivco

Software Engineering Manager

Feb 2024 - Jun 2026

- Lead high performing Software Engineers and Tech Leads across multiple countries, driving the development of critical distributed backend services in a high throughput Sportsbook system.
- Oversee two strategic domains: one managing logins and real time betting transactions, the other delivering a newly architected rewards engine from scratch driving revenue growth.
- Partner with Product, Operations and other Engineering teams to align priorities, shape the roadmap and deliver high impact features that align with business goals and enhance product value.
- Scale the engineering organisation by hiring, designing growth paths and fostering a culture of high performance, collaboration and continuous improvement.

Senior Software Engineer

May 2022 - Feb 2024

- Build new microservices from scratch, written in Go and deployed in Kubernetes clusters.
- Scale current microservices to go live in new markets and improve code quality.
- Act as interim Team Lead during annual leaves, unblocking engineers and ensuring the work is delivered successfully to reach team goals.
- Help interviewing candidates for the department.
- Coordinate a Testing & Performance Guild for the department.

Software Engineer

Jan 2021 - May 2022

- Develop, test, integrate, and maintain microservices written in Go.
- Replace legacy projects written in Elixir with implementations in Go.
- Manage PostgreSQL databases.
- Monitor systems and logs using Grafana and Splunk.

andornet

Andornet

Software Engineer

Feb 2020 - Jan 2021

- Define, develop, and go live with customized ASP.NET MVC web apps from scratch.
- Manage SQL Server databases.
- Implement CI/CD in existing company projects.

CTAIMA

CTAIMA

Software Engineer

Jan 2019 - Feb 2020

- Design and develop a new product formed by a REST API in .NET Core and a SPA in Vue.js.
- Develop an individual project consisting in a chatbot, integrable in corporate web apps, powered by Microsoft Bot Framework and populated with a QnA Maker knowledge database.
- Manage SQL Server and CosmosDB databases.

Junior Software Engineer

Jul 2017 - Jan 2019

- Maintain, improve, and develop new features in a legacy ASP.NET web app.
- Manage MySQL databases.

Personal projects

[scv-go-tools ↗](#)

Toolkit for building REST and gRPC APIs in Go, structured around clean architecture principles.

[go-hexagonal-api ↗](#)

A robust gRPC + REST API for user management built with Go and implementing the Hexagonal Architecture (Ports & Adapters) pattern, built on top of the scv-go-tools library.

[go-microservices-demo ↗](#)

A lightweight Go microservices demo showcasing gRPC and HTTP communication, built on top of the scv-go-tools library and using go-hexagonal-api as a backend service.

Skills

Strategy	People Management	Leadership
Distributed Systems	System Architecture	Cloud Infrastructure
Go	.NET	Software Testing

Certifications

Microsoft AZ-900: Azure Fundamentals	Microsoft 70-483: Programming in C#	Azure Devops Assessment (18473)
Microsoft Technology Associate (MTA)	Cambridge English: Advanced (C1)	Etc

Education

Present	<i>Executive MBA</i> · EAE Business School
2022	<i>Master's Degree in Data Science</i> · Universitat Oberta de Catalunya
2019	<i>Computer Engineering Degree</i> · Universitat Rovira i Virgili

Languages

English	Spanish	Catalan
